Dawat-e-Islami

Hiring Manager

JOB REFERENCE: PHP DEVELOPER

Dear Hiring Manager,

I am writing to express my strong interest in the PHP Developer position at **Dawat-e-Islami**, as advertised. With 2 year of web development experience, I have honed my skills in PHP, SQL, HTML, CSS, and JavaScript, specializing in creating user-friendly websites, online applications, and digital advertisements.

In my role as a PHP Developer, I have consistently demonstrated the ability to work independently while maintaining a broad project overview. I believe that a comprehensive understanding of the entire project is vital to delivering the best results. This perspective has allowed me to excel in delivering quality code that is tailored to meet unique customer needs and configurations. My proficiency in back-end development, coupled with my full-stack development expertise, positions me as an ideal candidate for this role.

I am particularly excited about the opportunity to actively engage in communications with partners and clients when necessary. Effective communication is key to understanding project requirements and ensuring that the end product aligns with the client's vision. I am also well-versed in following company release processes, which is essential for ensuring a seamless workflow.

In addition, I actively participate in requirements analysis, development, unit testing, and documentation. This approach ensures that each project I work on is not only well-built but also well-documented, making it easier for the team to maintain and enhance the code in the future.

In my current role at **Rsoft Technologies Pvt Ltd**, where I have been working for the past year as a full-stack web developer, I have successfully managed web applications using a range of technologies, including HTML5, CSS3, JavaScript, PHP, MySQL, Bootstrap, Laravel, WordPress, XML, JSON, GitHub, and RESTful APIs. My expertise in these technologies ensures a robust foundation for your projects

In addition to the skills and experience mentioned above, I have completed numerous projects during my tenure that I have thoughtfully added to my professional portfolio. You are welcome to review these projects there to gain a better understanding of my capabilities and the quality of my work.

My portfolio link: <https://codebyhk.tech>

Currently, I am pursuing my undergraduate degree in computer science while simultaneously completing an advanced diploma in software engineering. This academic background, combined with my practical experience, has provided me with a comprehensive skill set that I am eager to apply in the role of a PHP Developer.

Thank you for considering my application. I look forward to the opportunity to schedule an interview and further discuss my suitability for the position. Please feel free to contact me at **m.hassaankhan786@gmail.com** or **+923053205130**.

Sincerely

Muhammad Hassaan Khan
